

## *A wonderful park...*

which belongs to a country estate steeped in history. Here you are very close to Mallorcan history. A garden couldn't be more luxuriant and classic. A wide plane tree avenue, a palm forest, a pergola with water features from the 18th century, many tropical elements, a large water lily pond and all this framed by the Tramuntana mountains. The stately house unites valuable historical elements from epochs of different architectural styles. What a romantic setting for your wedding in Mallorca!
